

BENJAMIN JOHN DADA

I am an agile software developer with relevant years of work experience who is highly skilled in producing top-notch, high-quality work. My ability to quickly learn and absorb new information allows me to effectively develop and construct cutting-edge electronic document systems, and apply that knowledge to real-world problem-solving scenarios with great proficiency. I possess a unique capability of adapting to new and rapidly-evolving technical environments in a timely manner. My programming expertise is exemplified by my exceptional proficiency in the .NET framework, specifically utilizing C# language for ASP.NET MVC and ASP.NET Core development.

EXPERIENCE

Decagon, Nigeria— *Associate Software Developer*

March 2022 - Date

- Worked in an agile team of 8 .NET developers for a software development firm.
- Architected and developed backend APIs for an Ewallet application that processes 10,000 transactions per day.
- Maintained 5 websites using ASP.NET CORE, HTML and CSS that have a combined 50,000 monthly visitors.
- Created 50+ backend unit test using C# NUnit and XUnit resulting in 20% increase in code coverage.
- Design, Implement and maintain 3 .Net applications within all phases of the software that have been successfully deployed to production..

Rima Institute, Sokoto— *Frontend developer*

April 2021 - February 2022

- Contributed to Frontend projects in a team of 5 for the institute website that resulted in a 30% increase in user engagement.
- Developed 3 websites using HTML, CSS and JAVASCRIPT that have a combined traffic of 10,000 monthly visitors..
- Participated in educating and sensitizing tech skills in the community by conducting 2 workshops and training 20+ individuals.

Freelance Web Developer

June 2018 - December 2020

- Developed and designed 10 responsive websites for clients using HTML, CSS resulting in an average rating of 4.8 out of 5 from clients.
- Collaborated with 10 clients to understand their needs and provide solutions that exceeded their expectations, resulting in 100% client satisfaction rate.
- Optimized websites for speed, performance, and search engine optimization (SEO), resulting in a 20% increase in website traffic and a 15% increase in conversion rates.

PROJECTS

E-Commerce Dashboard

A mini e-commerce dashboard that reflects all transaction activities of a particular

HOME ADDRESS

2, Omolade Aluko str, Ali-Dada
B/S, Ago-Palace Road,
Cele, Lagos State, Nigeria.
